First-Quarter Business Highlights:

- Revenues from Assets under management, administration, and distribution fees increased primarily from higher assets under administration due to sales to new and existing alternative investment clients of the Investment Managers segment. Additionally, first-quarter 2024 revenues included fees of \$9.6 million from the SEI Integrated Cash Program of the Investment Advisors segment launched in December 2023.
- Market appreciation and positive cash flows into separately managed account programs and Strategist programs of the Investment Advisors segment also contributed to the increase in revenues. This was partially offset by negative cash flows from SEI fund programs in the Investment Advisors segment and client losses in the Institutional Investors segment.
- Average assets under management in equity and fixed income programs, excluding LSV, increased \$8.1 billion, or 5%, to \$175.9 billion during the first-quarter 2024, as compared to \$167.8 billion during the first-quarter 2023 (see attached Average Asset Balances schedule for further details).
- Average assets under administration increased \$121.0 billion, or 14%, to \$961.7 billion during the first-quarter 2024, as compared to \$840.7 billion during the first-quarter 2023 (see attached Average Asset Balances schedules for further details).
- Revenues from Information processing and software servicing fees increased from new client conversions and growth from existing SEI Wealth PlatformSM (SWP) clients.
- Net sales events in the Private Banks and Investment Managers segments during the first-quarter 2024 were \$24.5 million and are expected to generate net annualized recurring revenues of approximately \$20.7 million when contract values are completely realized.
- Net sales events in asset management-related businesses of the Investment Advisors and Institutional Investors segments and the Asset Management Distribution (AMD) business in the Private Banks segment during the first-quarter 2024 were negative \$5.7 million.
- Net sales events for newer initiatives, which includes SEI Family Office Services, SEI Private Wealth Management and SEI Sphere, were \$2.5 million during the first-quarter 2024.
- The increase in operational expenses was due to higher personnel costs from business growth, primarily in the Investment Managers segment, severance costs of \$6.2 million, and the impact of inflation on wages and services. Cost containment measures related to consulting and other outsourced vendor costs partially offset the increase in operating expenses during the first-quarter 2024.
- Earnings from LSV increased to \$31.6 million in the first-quarter 2024 as compared to \$28.9 million in the first-quarter 2023 due to market appreciation and increased performance fees. Net negative cash flows from existing clients and client losses partially offset the increase in earnings from LSV.
- Capitalized software development costs were \$6.3 million in the first-quarter 2024, of which \$3.8 million was for continued enhancements to SWP. Capitalized software development costs also include \$2.5 million in the first-quarter 2024 for a new platform for the Investment Managers segment.
- Effective tax rates were 22.9% in the first-quarter 2024 and 23.6% in the first-quarter 2023.
- Repurchased shares of SEI common stock were 808 thousand for \$56.0 million during the first-quarter 2024 at an average price of \$69.32 per share.
- Cash flow from operations was \$112.3 million, and free cash flow was \$92.9 million during the first-quarter 2024.
