PROXY STATEMENT  
1995 ANNUAL MEETING OF SHAREHOLDERS

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of SEI Corporation (the "Company") of proxies for use at the 1995 Annual Meeting of Shareholders of the Company to be held on May 16, 1995 (the "1995 Annual Meeting"), and at any adjournments thereof. Action will be taken at the meeting upon the election of two directors, ratification of the selection of Arthur Andersen LLP as the Company's auditors for 1995, and such other business as may properly come before the meeting and any adjournments thereof. This Proxy Statement, the accompanying proxy card, and the Company's Annual Report for 1994 will first be sent to the Company's shareholders on or about April 24, 1995.

VOTING AT THE MEETING

Only the holders of the Company's Common Stock, par value \$.01 per share ("Shares"), of record at the close of business on April 5, 1995 are entitled to vote at the 1995 Annual Meeting. On that date there were 18,815,859 Shares outstanding and entitled to be voted at the meeting. Each holder of Shares entitled to vote will have the right to one vote for each Share standing in his or her name on the books of the Company. See "Ownership of Shares" for information regarding the ownership of Shares by directors, nominees, officers, and certain shareholders of the Company.

The Shares represented by each properly executed proxy card will be voted in the manner specified by the shareholder. If instructions to the contrary are not given, such Shares will be voted FOR the election to the Board of Directors of the nominees listed herein and FOR ratification of the selection of Arthur Andersen LLP as the Company's auditors for 1995. If any other matters are properly presented to the meeting for action, the

proxy holders will vote the proxies (which confer discretionary authority to vote on such matters) in accordance with their best judgment.

Execution of the accompanying proxy card will not affect a shareholder's right to attend the meeting and vote in person. Any shareholder giving a proxy has the right to revoke it by giving written notice of revocation to the Secretary of the Company at any time before the proxy is voted. Under the Pennsylvania Business Corporation Law, if a shareholder (including a nominee, broker, or other record owner) records the fact of abstention or fails to vote (including broker non-votes) either in person or by proxy, such action is not considered a vote cast and will have no effect on the election of directors or voting upon Proposal two.

Proposal No. 1 ELECTION OF DIRECTORS

The Board of Directors of the Company currently consists of seven members and is divided into three classes, two classes each being comprised of two directors and one class being comprised of three directors. One class is elected each year to hold office for a three-year term and until successors of such class are duly elected and qualified, except in the event of death, resignation, or removal. Subject to shareholder approval at this meeting, two directors will be elected for the current class. This class will be elected at the 1995 Annual Meeting by a plurality of votes cast at the meeting.

Messrs. West and Doran, both of whom are current members of the Board, have been nominated by the Board of Directors for election as directors at the 1995 Annual Meeting. Shares represented by properly executed proxy cards in the accompanying form will be voted for such nominees in the absence of instructions to the contrary. The nominees have consented to be named and to serve if elected. The Company does not know of anything that would preclude the nominees from serving if elected. If, for any reason, a nominee should become unable or unwilling to stand for election as a director, either the Shares represented by all proxies authorizing votes for such nominee will be voted for the election of such other person as the Board of Directors may recommend, or the

number of directors to be elected at the 1995 Annual Meeting will be reduced accordingly.

The Board of Directors unanimously recommends that the shareholders vote FOR the election of Messrs. West and Doran as directors at the 1995 Annual Meeting.

The Company also has an employment agreement with Mr. Richard B. Lieb, Executive Vice President of the Company. - (1) All options granted to the named executive officers were non-qualified options granted on December 13, 1994, at an exercise price equal to the fair market value on such date. All options become exercisable in four equal annual installments beginning one year from the date of option grant.

9

(2)Based on the Black-Scholes option pricing model adapted for use in valuing executive stock options. The actual value, if any, an executive officer may realize will depend on the excess of the stock price over the exercise price on the date of exercise; therefore, there is no assurance that the value actually received by an executive officer will be at or near the value estimated by the Black-Scholes model. The estimated values under the model are based

on arbitrary assumptions as to variables such as interest rates, stock price, volatility, and future dividend yield. The key assumptions used in the Black-Scholes model valuation of the options are (i) an annual dividend yield of .46%, (ii) a risk free rate of return of 7.70%, (iii) a beta coefficient of 36.62%, (iv) an exercise date of 10 years from the date of grant, and (v) no reduction in values to reflect non-transferability and other restrictions on the options. These assumptions are not a forecast of future dividend yield or stock price performance or volatility.

(1) Represents the difference between the closing price of the Company's Common Stock at December 31, 1994, and the exercise price of the option.

Director Compensation Each director who is not an employee of the Company receives \$1,800 per meeting attended and an annual retainer of \$10,800. The chairman of the Audit Committee and the chairman of the Compensation Committee each receive an additional annual fee of \$2,400.

10

Under the Company's Stock Option Plan for Non-Employee Directors (the "Directors' Option Plan"), which was approved by the shareholders at the 1988 Annual Meeting, each director not employed by the Company is awarded an option on the last business day of each year to purchase 4,000 Shares. These options have an exercise price equal to the fair market value of the Shares as of the date of grant and a ten-year term. The options become exercisable in four equal annual installments beginning one year from the date of option grant. Options generally terminate 30 days after the optionee ceases to be a non-employee director of the Company, except that this period is extended to one year in the event such termination was due to the director's death, disability, or employment by the Company.

In 1994, Messrs. Carroll, Doran and Porter, the Company's non-employee directors, each received options under the Directors' Option Plan to purchase 4,000 Shares at an exercise price of \$17.25 per share.

Compensation Committee Report on Executive Compensation The Company's executive compensation philosophy (which is intended to apply to all members of senior management, including the Chief Executive Officer and the President and Chief Operating Officer), as implemented by the Compensation Committee, is to provide a compensation program which results in competitive levels of compensation while providing incentives for management to attain the Company's annual goals and longer term objectives. The compensation is primarily in the form of base salary, incentive bonuses and stock options. The compensation program includes annual financial goals as well as group and individualized non-financial goals which are expected to have future financial benefits to the Company. The

program is reviewed each year and adjusted at the beginning of the year to reflect the financial and non-financial goals for that year. The Company believes that this compensation approach has enabled it to attract and retain highly qualified personnel who support and implement the Company's goals.

The discussion below describes the Compensation Committee's compensation process for senior management during 1994 and its current strategies for compensation.

11

#### Base Salaries

The Compensation Committee seeks to set base salaries for senior management at levels that are competitive with salaries paid to management with comparable qualifications, experience, and responsibilities at companies of comparable size engaged in the same or similar businesses as the Company. Several years ago, the Company retained an independent compensation consultant to provide competitive compensation information which was used by the Compensation Committee in reviewing base salaries and total compensation for senior management. Based upon this information, the Company believes the base salaries for senior management were then set at or near the median of competitive base salaries. The base salary for each executive officer, including the Chief Executive Officer and the President and Chief Operating Officer, is reviewed annually. In 1992, 1993 and 1994, senior management base salaries were not increased except in connection with promotions or increased responsibilities of certain individuals. Although the Compensation Committee may adjust base salaries based on its assessment of the person's past performance, competitive salaries, and its expectation as to his or her future contributions in leading the Company and its businesses, the Committee expects base salary increases to be minimized in the future with more compensation tied to performance objectives. Base salaries, however, may be adjusted if an officer is promoted to a higher level management position or is given increased responsibilities.

#### Incentive Bonuses

During the first quarter of each year, the Compensation Committee reviews target goals of profitability and revenue growth for the Company which are developed by the Chief Executive Officer, the President and Chief Operating Officer, and senior management of the Company. The Compensation Committee uses these to set threshold and target goals of profitability and revenue growth for purposes of the incentive compensation plan for the year. Goals are established at the corporate

12

level and also at market unit levels. Bonus pools for achieving targets are established for market units and for senior management (including the Chief Executive Officer and the President and Chief Operating Officer). These target bonus pools will be prorated if the target goals are exceeded or if they are not met, provided that the threshold goals are met. In addition, the size of the final bonus pools may be adjusted for non-financial achievements, changes in the market units or other organizational changes during the year. During December of each year, the Compensation Committee reviews the Company's actual performance as compared to the threshold and target goals and determines the total amount of bonuses for the year and the specific bonuses to be paid to the Chief Executive Officer, the President and Chief Operating Officer and senior management. The amount of the bonus paid to each member of senior management (other than the Chief Executive Officer and the President and Chief Operating Officer) is based upon recommendations from the Chief Executive Officer and the President and Chief Operating Officer and reflects, in addition to

overall Company performance, the performance of his or her unit, and any individual achievements during the year as well as internal and external client evaluations. The amount of the bonuses paid to the Chief Executive Officer and the President and Chief Operating Officer of the Company is determined by the Compensation Committee based upon the Company's achievement of profitability and revenue growth goals and the achievement of strategic organizational goals.

For 1994, the Company exceeded its threshold goals but did not meet its target profitability and revenue growth goals established by the Compensation Committee. At the same time, the Company achieved a number of strategic objectives, including an organizational restructuring designed to enhance the Company's focus and strategic direction. Based on the foregoing and after making certain adjustments for non-financial goals achieved and certain individual achievements, the Compensation Committee approved final bonus pools for 1994 which totalled approximately 80% of the target bonus pools.

#### Stock Options

Prior to 1992, the philosophy of the Company, through the Compensation Committee, was to grant stock options to senior management as an additional form of compensation for services rendered. In accordance with this philosophy, senior management normally would receive option grants each year. The Compensation Committee is reviewing the appropriateness of that philosophy and ways to promote long-term ownership of the Company's Common Stock by senior management. The Company believes that ownership will strengthen the alignment of management's incentives to the long-term goals of the Company and its shareholders. In an attempt to move toward strengthening the long-term focus of stock option grants, the Company may establish programs which assist with retention of stock acquired through exercise of options. The Compensation Committee also is considering the total number of options which might be appropriate for certain positions or levels of responsibility. Once such levels are determined, only extraordinary individual performance or other peculiar circumstances would result in additional grants of options in excess of such levels unless the employee was promoted to a higher level management position or was given increased responsibilities. Thus, certain members of senior management would ultimately receive intermittent option grants instead of annual grants. In addition, the Chief Executive Officer, who is the founder and a controlling shareholder of the Company, has not received any option grants from the Company during the past three years.

During 1994, the Compensation Committee awarded non-qualified stock options for an aggregate of 564,500 Shares to 94 management level employees (including the named officers). The exercise price of these options was the fair market value of the Common Stock on the date of grant. As with prior grants, these stock options have a ten-year term and vest in four equal annual installments measured from the date of option grant.
