Proxy Statement

1999 Annual Meeting of Shareholders

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of SEI Investments Company (the "Company") of proxies for use at the 1999 Annual Meeting of Shareholders of the Company to be held on May 18, 1999 (the "1999 Annual Meeting") and at any adjournments thereof. Action will be taken at the meeting upon the election of two directors, ratification of the selection of Arthur Andersen LLP as the Company's auditors for 1999, and such other business as may properly come before the meeting and any adjournments thereof. This Proxy Statement, the accompanying proxy card, and the Company's Annual Report for 1998 will first be sent to the Company's shareholders on or about April 28, 1999.

Voting at the Meeting

1

Only the holders of the Company's Common Stock, par value \$.01 per share ("Shares"), of record at the close of business on April 7, 1999 are entitled to vote at the 1999 Annual Meeting. On that date there were 17,771,246 Shares outstanding and entitled to be voted at the meeting. Each holder of Shares entitled to vote will have the right to one vote for each Share outstanding in his or her name on the books of the Company. See "Ownership of Shares" for information regarding the ownership of Shares by directors, nominees, officers, and certain shareholders of the Company.

The Shares represented by each properly executed proxy card will be voted in the manner specified by the shareholder. If instructions to the contrary are not given, such Shares will be voted FOR the election to the Board of Directors of the nominees listed herein, and FOR ratification of the selection of Arthur Andersen LLP as the Company's auditors for 1999. If any other matters are properly presented to the meeting for action, the

proxy holders will vote the proxies (which confer discretionary authority to vote on such matters) in accordance with their best judgment.

Execution of the accompanying proxy card will not affect a shareholder's right to attend the 1999 Annual Meeting and vote in person. Any shareholder giving a proxy has the right to revoke it by giving written notice of revocation to the Secretary of the Company at any time before the proxy is voted. Under the Pennsylvania Business Corporation Law, if a shareholder (including a nominee, broker, or other record owner) records the fact of abstention or fails to vote (including broker non-votes) either in person or by proxy, such action is not considered a vote cast and will have no effect on the election of directors or the ratification of the selection of Arthur Andersen LLP, but will be considered present for purposes of determining a quorum.

(Proposal No. 1) Election of Directors

The Board of Directors of the Company currently consists of seven members and is divided into three classes, one class comprising three directors, and two classes comprising two directors. One class is elected each year to hold office for a three-year term and until successors of such class are duly elected and qualified, except in the event of death, resignation, or removal. Subject to shareholder approval at this meeting, two directors will be elected for the current class. This class will be elected at the 1999 Annual Meeting by a plurality of votes cast at the meeting.

Mr. Porter and Ms. McCarthy, both of whom are current members of the Board of Directors, have been nominated by the Board of Directors for election as directors at the 1999 Annual Meeting. Shares represented by properly executed proxy cards in the accompanying form will be voted for such nominees in the absence of instructions to the contrary. The nominees have consented to be named and to serve if elected. The Company does not know of anything that would preclude the nominees from serving if elected. If, for any reason, a nominee should become unable or unwilling to stand for election as a director, either the Shares represented by all proxies authorizing votes for such nominee will be

voted for the election of such other person as the Board of Directors may recommend or the number of directors to be elected at the 1999 Annual Meeting will be reduced accordingly.

Director Compensation Each director who is not an employee of the Company receives \$1,800 per meeting attended and an annual retainer of \$10,800. The chairman of the Audit Committee receives an additional annual fee of \$2,400.

In 1998, Messrs. Doran, Porter and Ms. McCarthy, the Company's non-employee directors, each received options to purchase 4,000 Shares at an exercise price of \$89.75 per share under the SEI Investments Company 1998 Equity Compensation Plan. These options have an exercise price equal to the fair market value of the Shares as of the date of grant and a ten-year term. The options become exercisable in two equal installments upon achievement by the Company of certain diluted earnings per share goals; provided that all options fully vest upon the seventh anniversary of the date of the option grant. Upon her election to the Board of Directors, Ms. McCarthy also received options to purchase 8,000 Shares at an exercise price of \$57.00 per share under the SEI Investments Company 1998 Equity Compensation Plan.

Notwithstanding anything to the contrary, the following Report of the Compensation Committee and the Performance Graph on page 17 shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or under the Exchange Act, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

Compensation Committee Report on Executive Compensation The Compensation Committee, consisting of two nonemployee directors and Mr. West, the Chairman and Chief Executive Officer and largest shareholder of the Company, approves all policies and plans under which compensation is paid or awarded to management employees. Included in this group are management level employees of all of its business units other than sales employees who are under sales commission compensation plans.

The Company's compensation philosophy (which is intended to apply to all members of management, including the Chief Executive Officer and the President and Chief Operating Officer), as implemented by the Compensation Committee, is to provide a compensation program for management which results in competitive levels of compensation and which emphasizes incentive plans aligned with attaining the Company's

12

annual goals and longer term objectives. The Company believes that this approach enables it to attract, retain and reward highly qualified personnel.

The compensation program consists of base salary; bonuses pursuant to incentive plans; and grants of stock options (in addition to benefits afforded all employees such as healthcare insurance and stock purchase and defined contribution plans).

In 1997, the Compensation Committee retained an independent compensation consulting firm to review compensation levels for senior management and its overall compensation program. Its review included a comparison of compensation of senior management (approximately 20 senior executives) to the compensation for senior management of comparable companies and interviews with individual members of senior management. As a result of this review the Compensation Committee implemented certain changes in the compensation program to (1) align compensation more closely to long and short term profitability of the Company and other Company financial goals and (2) encourage long term stock ownership by senior management. In addition to the changes with respect to stock options described hereinafter, the Company modified its 401(k) plan to permit investment in Company stock and removed the limit on annual compensation which can be invested in Company stock through the Company Employee Stock Purchase Plan. The Compensation Committee believes that these changes will enhance shareholder value.

The discussion below describes the Compensation Committee's compensation process for 1998 and its 1999 strategies for compensation.

Base Salaries

The Compensation Committee seeks to set base salaries for management employees at levels that are competitive with salaries paid to management with comparable qualifications, experience, and responsibilities at companies of comparable size engaged in the same or similar businesses as the Company. Since 1992, the Committee has minimized base salary increases. The Committee expects to continue to minimize base salary increases with incentive compensation tied to performance objectives becoming a larger portion of overall compensation. Base salaries, however,

may be adjusted if a manager is promoted to a higher level management position or is given increased responsibilities.

During the first guarter of each year, the Compensation Committee reviews target performance goals which are developed by the Chief Executive Officer, the President and Chief Operating Officer, and senior management of each business unit of the Company. The Compensation Committee uses these to set threshold and target performance goals for purposes of the incentive compensation plan for the year. Goals are established at the corporate level and also at business unit levels. Bonus pools for achieving targets are established for business units and for senior management (including the Chief Executive Officer and the President and Chief Operating Officer). These target bonus pools are prorated if the target goals are exceeded or if they are not met, provided that the threshold goals are met. Each individual is then assigned a target compensation award. This award is based on three indices, a corporate goal index, a unit goal index and a personal goal index. Although sales compensation continues to be based in part on a standard revenue payout, there also is incorporated a corporate goal index, unit goal index and a personal index in the computation of actual incentive compensation.

During December of each year, the Compensation Committee reviews the Company's actual performance as compared to the threshold and target goals and determines the total amount of bonuses for the year and the specific bonuses to be paid to the Chief Executive Officer, the President and Chief Operating Officer and senior management. In addition, the size of the final bonus pools may be adjusted for nonfinancial achievements, changes in the business units or other organizational changes during the year. The amount of the bonus paid to each member of senior management (other than the Chief Executive Officer and the President and Chief Operating Officer) is based upon recommendations from the Chief Executive Officer and the President and Chief Operating Officer and reflects, in addition to overall Company

performance, the performance of his or her business unit, and any individual achievements during the year as well as internal and client evaluations. The amounts of the bonuses paid to the Chief Executive Officer and the President and Chief Operating Officer of the Company are determined by the non-employee members of the Compensation Committee based upon the Company's achievement of profitability and revenue growth goals and the achievement of strategic organizational goals.

In December 1998, the Compensation Committee reviewed the performance of the Company for 1998 against the incentive compensation plan targets. The corporate goals were achieved and each of the business units achieved its targeted goals except for two of the units which fell below the target goals. Based on its review of this performance against the plan, the Committee approved payment of incentive compensation for the year in a total amount which was approximately \$800,000 less than the 1998 plan would have called for had all of the units met their targets.

For 1999, the Compensation Committee again adopted a corporate compensation plan that is based on assigning each employee an individual target compensation award. The actual award is then based on the achievement of (1) corporate goals, (2) the employee's business unit goals and (3) the employee's own goals. The Compensation Committee believes that the establishment of individual target awards and objective measurement standards gives employees more predictability as to the incentive compensation to be achieved.

Stock Options

Prior to 1992, the philosophy of the Company was to grant stock options to senior management as an additional form of compensation for services rendered. In accordance with this philosophy, senior management normally would receive option grants each year except that Mr. West, the Chairman, Chief Executive Officer and largest shareholder of the Company, has never received stock option grants from the Company.

Stock option grants are viewed by the Committee as an important $% \left({{{\boldsymbol{x}}_{i}}} \right)$

means of aligning the interest of management and employees with shareholders. The Company implemented changes in its stock option plans and related plans at the end of 1997 which are intended to encourage long term stock ownership by employees and which tie vesting of stock options to financial performance by the Company. Beginning with stock options granted at the end of 1997, the stock options will vest at a rate of 50% when a specified earnings per share target is achieved and the remaining 50% when a second, higher specified earnings per share target is achieved. In any event, the options will fully vest after seven years. The Company also adopted a stock ownership program which will make loan guarantees available for employees who exercise stock options and also permits a deferral plan for stock options.

Application of Section 162(m)

Payments during 1998 to the Company's management employees as discussed above were made with regard to the provisions of section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). Section 162(m) limits the deduction that may be claimed by a "public company" for compensation paid to certain individuals to \$1 million except to the extent that any excess compensation is "performancebased compensation." It is the Compensation Committee's intention to consider the deductibility of compensation under Section 162(m).

(Proposal No. 2) Ratification of Selection of Auditors

The Board of Directors has appointed Arthur Andersen LLP, independent public accountants, to be the Company's auditors for 1999. Although not required to do so, the Board of Directors has determined that it would be desirable to request ratification of this appointment by the holders of Shares of the Company. If such ratification is not received, the Board of Directors will reconsider the appointment. Representatives of Arthur Andersen LLP are expected to be available at the 1999 Annual Meeting to respond to appropriate questions and to make a statement if they so desire.

The affirmative vote of a majority of the votes cast at the 1999 Annual Meeting by the holders of the outstanding Shares is required for the ratification of this selection. The Board of Directors unanimously recommends that the shareholders vote FOR approval of this proposal.
