Second-Quarter Business Commentary:

- Private Banking & Trust lagged year ago levels on revenues and profits. This is primarily due to previously reported losses in the mutual fund services business during the second half of 2004 and increased investment and operational spending during 2005.
- The Investment Advisors, Enterprises, Money Managers and Investments in New Businesses segments reported revenue gains vs. year ago levels. The Investment Advisors and Enterprises segment results for 2005 include an offsetting revenue and expense reclass of approximately \$2.8 million and \$1.1 million respectively, that was not reflected for the same period in 2004. This had no impact on operating profit.
- Consolidated operating margins lagged year ago levels, due primarily to the previously announced increased rate of investment spending necessary to deliver new company strategies and solutions. This was reflected in most of the segment operating margins vs. year ago levels.

- Assets under management grew by \$6.8 billion during the second quarter to \$130.7 billion.
- In the second quarter, SEI purchased 1,132,000 shares of its common stock for \$40.3 million.
