"Our third-quarter results reflect the impact from improving capital markets and the cost reduction initiatives we put in place earlier this year," said Alfred P. West, Jr., SEI Chairman and CEO.

"While improving capital markets resulted in favorable comparisons to second quarter 2009; the still-depressed levels continue to have a negative impact on company results compared to third quarter 2008. That said, our financial strength enables us to continue to implement the long term strategies vital to the sustained success of our company.

"As always, we are focused on our clients' well-being and success. We are firm in our belief that what we are doing will significantly benefit our clients and SEI both today and in the future."

The amortization is offset through noncontrolling interest since SEI does not have any ownership in LSV Employee Group LLC.

Third-Quarter Business Commentary:

- All segments realized lower third-quarter 2009 revenues compared to third quarter 2008 primarily due to still-depressed capital markets when compared to year ago levels.
- The improvement of capital markets in the third quarter 2009 compared to second quarter 2009 was the primary driver of improved revenues on a sequential quarter basis. The Institutional Investors and Investment Managers segment results were also positively affected by new business wins.
- The third-quarter 2009 results include gains of \$14.9 million associated with SIV-related securities held by SEI. Additional information pertaining to SIV-related issues involving SEI and its sponsored money market funds is contained in SEI's 2008 Form 10-K filed February 25, 2009 and SEI's 2009 second-quarter Form 10-Q filing dated August 5, 2009.
- In September 2009, SEI purchased the remaining SIV from the SDIT Prime Obligation Fund for \$60.7 million. As a result of this purchase, SEI's obligation under the Capital Support Agreement was canceled. SEI has now purchased all SIVs owned by its money market funds and has no capital support agreements left in place.
- The third-quarter 2009 results include \$7.7 million of additional depreciation expense associated with a change in the useful life of previously capitalized software development costs for some components related to Global Wealth Platform (GWP). This charge was due to the expected replacement of these components with components contained in the next release of GWP scheduled for Q4 2009. The bulk of this expense is contained in the Private Banks segment (\$5 million) and the Investment Advisors segment (\$1.9 million), depressing third-quarter 2009 margins.
- During the third quarter 2009, the Institutional Investors segment recorded a one-time charge of \$2.2 million related to an operational error.
- Assets under management increased by \$20.4 billion during the third quarter 2009 to \$156.1 billion, primarily due to market appreciation.
- In the third quarter, SEI purchased 975,000 shares of its common stock for \$18.5 million.
